Red Meat Saver Silver Vac Pouches

No UV light gets to the meat. The red meat comes out looking the same, if not **BETTER** than when it went in!

Work faster and
more efficiently from
just 20p each
(400x400mm).
No more unpicking foil!

If you're getting vac pouches elsewhere, switch to our silver pouches and save! **Can you afford NOT to be using them?**
